

Society of Southern Maine Craftsmen

Category and Criteria Listing

Introduction

Hand crafted items exhibited for sale at all SSMC venues will be held to the following criteria:

- Quality craftsmanship demonstrated within the medium
- Products are created by or under direct supervision by the primary member(s) within their own work environment.
- The practice of simple alteration of purchased items is unacceptable
- No kits, strung beads, manufactured or resale items
- Accessories may be used to show functionality of product, but may not be the primary portion of the final product sold.

Following is a list of all craft categories and the criteria SSMC follows surrounding each category.

BASKETRY

Baskets constructed of various materials. Quality design and durability emphasized. No unintentional loose ends. NO KITS.

CERAMICS

A clean finish with no rough edges, originality in design, painting and color sense. As of April 1994 new crafters in ceramics will NOT be allowed to sell bisque ware. Crafters juried prior to April 1994 are grand-fathered.

CLAY

Freeform, Porcelain, Pottery, Slab built, Tiles, Wheel Thrown. Non-toxic glazes only. Pleasing original designs that are durable. Functional pieces should have comfortable handles, well fitting lids, smooth even bottoms and rims. The public must be informed of proper use and care of the item.

DECORATIVE ARTS

Batik, Bead Weaving, Fabric Covered items NOT SEWN, Silk Arrangements. This is a mixed media category. What is done must significantly enhance the appearance of the original objects. Aim is for a well finished product with a professional look, where the creativity of the craftsmen is clearly prominent. NO KITS or simple assembled store bought products.

DECORATIVE PAINTING

Folk Art, Tole Painting, Faux Finishing, Hand Painted Clothing, Hand Painted Reproductions, Stenciling, Theorem. This is a multi surface media. What is done must significantly alter the appearance of the original object. There should be a clean finish, front and back with no rough edges. Product should be well designed.

FIBER ART

Macramé, Rugs, Spinning, Weaving, Woven Fabrics. Quality designs and durability of construction a must, pleasing mixtures of color and texture are important. NO KITS. Pieces must be finished inside and out, no loose ends. Proper content and care labeling made available to the public. Stress placed on originality of patterns or well executed traditional patterns.

FINE ART

Original Artwork, Oils, Acrylic and Watercolor. Matted or framed.

FOOD

Proper licenses must be obtained and product must be labeled and packaged. If samples are given at a show, the crafter must provide a waste receptacle at the booth.
